LeetCode: leetcode.com/u/varunpakkurthi

Career Objective

Aspiring AI/ML and Software Engineering student seeking international internship opportunities. Interested in AI, software development, data-driven solutions, and cross-cultural collaboration. Eager to contribute to innovative Japanese technology companies through the METI Internship Program.

Education

Pragati Engineering College – B.Tech in Computer Science & Engineering (AI & ML)

Expected Graduation: 2028 | CGPA: 9.19

Technical Skills

Programming: Java, Python, C

Web: HTML, CSS, JavaScript, React

AI/ML: Machine Learning Fundamentals, Data Analysis

Tools: Git, GitHub, VS Code

Projects

AI-Powered Coding Skill Analyzer

- Developed a Python-based application to analyze coding performance and provide improvement insights.

Snake Game using React

- Built an interactive browser-based game using React and JavaScript.

Internships & Programs

1M1B AI for Sustainability Virtual Internship (AICTE), 2026

- Participated in AI, sustainability, responsible innovation, and real-world project development activities.

Achievements & Activities

- Active participant in coding challenges and technical learning programs.

- Strong interest in AI, software engineering, and emerging technologies.
